Highlights of year's monthly meetings: speakers, dinners, picnics, etc.:

This year we had nine meetings, some with speakers, some at the excavation we undertook, and some lab sessions where we worked processing artifacts. Programs included: The 2002 Safe Harbor Petroglyph Recording Project, Ancient Earthworks of the Ohio Valley, Canal Ruins along the Lower Susquehanna, Archaeology at the York Friends Meeting House, We also took a Field Trip to the Vera Cruz Jasper Quarries & Museum of Indian Culture, Allentown, had our annual picnic at Klines Run Park, and had our annual Holiday Party.

Projects, excavations, surveys, study projects, etc.:

This year we conducted a privy excavation at York Friends Meeting House. Built in 1769, is the oldest house of worship in York. In recent years the Meeting has been growing and they are considering expanding their building. The expansion would destroy a privy that was used from as far back as at least the mid-1800's up into the 1960's. The Friends invited our Chapter to excavate the privy to document its location, construction, and any artifacts it might contain. We were able to recover a large number of artifacts that we are currently processing.

Attach a complete list of paid-up chapter members which includes their name, address (with zip code), phone number (with area code), as required by SPA Constitution Articles VI6c and X6d. Use other side of form for continuation of any information required for which there is insufficient space.
